Subject: DSIMPIC membership

City Council Members,
I have confirmed with staff that one of our DSIMPIC members, Sydney Spencer, is no longer living at her former address and that her telephone numbers have been disconnected. She also has not attended a DSIMPIC meeting in quite some time.

While DSIMPIC has not been meeting often in recent years, when we do meet it is because there is a design issue to be resolved or an important project to be reviewed. Further, there is still much that needs implementation before we will realize the benefit of what has been done to date in the core area. And, we assume the plan will need to be up-dated when the Specific Plan process is finished. Actually, it needs updating now.

Because I believe it is important that there be a strong correlation between DSIMPIC and DRC work in the downtown, I think it is a great advantage to have a DRC member serving on DSIMPIC. I have asked Bob Cleaver if he was interested and he gave me a very emphatic YES. So it would be my hope that the Council could appoint him to the vacancy.

Sincerely,
Jeanne Ateljevich
Chair, DSIMPIC
